- Flexibility to allocate across multiple guaranteed fixed interest rate periods**
- Protection of your principal**
- Tax-deferred growth until you take withdrawals**
- Free withdrawal amount in Year 1\***

### Summary of Key Features

For more details, see the Apex MYGA<sup>SM</sup> Disclosure Statement.

<b>Guarantee Periods</b>	3, 5, or 7 years Premiums may be allocated to more than one interest guarantee term (subject to meeting minimum allocation amounts)
<b>Maximum Issue Age</b>	85 (for owners and annuitants)
<b>Ownership Requirements</b>	Owner must be the annuitant, except when a trust is the owner
<b>Premium</b>	<ul style="list-style-type: none"> <li>• Minimum: \$10,000 nonqualified; \$5,000 qualified</li> <li>• Maximum: \$1,000,000 per owner without Delaware Life approval</li> </ul>
<b>Plan Types</b>	Nonqualified and qualified IRA, SEP-IRA (Rollover/Transfers), and Roth IRA

\*Available free withdrawal amount in Year 1—10% of total premiums paid, or required minimum distribution (RMD), if greater—and then withdrawal amount each year thereafter (10% of the most recent contract anniversary value, or RMD, if greater). The taxable portion of any withdrawal is taxed as ordinary income. In a nonqualified plan, since it is funded with after-tax money, only the earnings portion of any withdrawal would be taxed as ordinary income. Withdrawals made before age 59½ may be subject to an additional 10% federal tax penalty.

There is no additional tax benefit to purchasing an annuity within a qualified retirement plan. If you choose to purchase an annuity in a qualified retirement plan, you should do so for reasons other than tax deferral, such as the features and benefits of the annuity.

<b>Automatic Renewals to Age 95</b>	You have 30 days at the end of each guarantee period to select a new guarantee period, elect a settlement option, or withdraw the account value with no surrender charge or market value adjustment (MVA). If no election is made, the policy automatically renews using the previous guarantee period at the current rate.*																																
<b>Free Withdrawals of up to 10% Each Year<sup>1</sup></b>	In the first contract year, 10% of total premiums paid, or the required minimum distribution (RMD) amount, if greater, can be withdrawn free of surrender charges. In the second contract year and thereafter, 10% of the most recent contract anniversary value, or RMD, if greater, can be withdrawn free of surrender charges.																																
<b>Market Value Adjustment (MVA)</b>	This adjustment is applied to withdrawals and surrenders in excess of the 10% free withdrawal limit made at any time other than the 30-day window prior to the end of a guarantee period. The MVA is equal to the amount withdrawn or surrendered, less any available free withdrawal amount, times the MVA Factor which is linked to the Moody's Bond Indices – corporate average rate. MVA does not apply to penalty-free withdrawals, the payment of a death benefit, or at the end of the guarantee period. It is applicable in all states but California has caps and floors that are applied to the MVA factor.
